Here are some of our ideas that might make good discussion.

1. Is anyone using the “Master ASL” book for teaching? If so tell us more about it as compared to other texts.
2. Should voice be used while teaching ASL?
3. What are some of the techniques you use successfully to teach ASL?
4. Do you have a particular game you use to help teach a certain topic or skill?

If you have more ideas you would like to discuss at the share shop please email to: [pdchair@wisaslta.org](mailto:pdchair@wisaslta.org). I can type it up and include it in our share shop discussion.
